

## UMIDS

### 29<sup>th</sup> International exhibition of furniture, interior items, materials, components and equipment for woodworking and furniture production

UMIDS is one of the largest international exhibitions in Russia and the only trade fair of its kind in Southern Russia dedicated to furniture, interior design, materials, components, and equipment for the furniture and woodworking industries.

In 2026, the exhibition brought together 340 companies from various regions of Russia, as well as Belarus, China, Turkey, Iran, and Uzbekistan. The exposition covered 30,000 square meters across four pavilions of the Expograd Yug exhibition and convention center. Every year, UMIDS attracts thousands of furniture industry professionals from across Russia and neighboring countries.

The exhibition showcases equipment, technologies, components, and materials for furniture manufacturing, along with a wide range of finished furniture and interior solutions. The exposition is divided into two major sections: "Furniture. Interior Design" and "Equipment. Components."

In 2026, UMIDS also introduced the debut edition of Design Arena, a concept exhibition dedicated to interior solutions. The project brought together furniture manufacturers, interior brands, designers, and architects in a specially curated space highlighting the latest trends in product design and residential and commercial interiors. "Design Arena" became a platform for presenting contemporary interior concepts, original design solutions, and innovative approaches to modern living spaces.
